

Sponsoring Package for the *IRRC Waste-to-Energy* on October 15 and 16, 2020 – Web-Congress

The duration and extent of restrictions caused by the corona virus cannot yet be realistically estimated for the coming months. Also in view of the internationality of the participants we have therefore decided to organize the IRRC Waste-to-Energy as a **web congress** this year. Practical experience with the organisational and technical implementation of such a two-day web conference with four parallel sessions and about 200 participants we gained last month with our [conference on mineral by-products and wastes](#) and we received a lot of positive feedback for it.

For the web congress we will be **recording the individual lectures via video conference** in the run-up to the event. For each block of presentations there will be a **live discussion** during the congress for questions and professional exchange.

A few months ago we have released **our new Vivis-app**. Among other helpful features, it will be particularly useful for sponsoring companies to present themselves and organise new contacts. Our App will allow registered participants to access all recorded videos on the app for a period of three months starting on the first day of the congress.

For this year's Web-Congress we have put together a **modified sponsoring package**. The sponsorship amount is **5,000 EUR** plus VAT and includes the following services for the sponsoring companies:

- the company **logo** on the **front page of the programme flyers** (digital and print), provided that we have received confirmation before the flyer is printed,
- the company **logo** and a link to the company's homepage are displayed on the **IRRC-website** www.irrc.at
- the company **logo** is displayed at the start of **all recorded videos** of presentations and discussions,
- **2 free tickets** for the Web-Congress,
- **sponsoring entry** in our new **Vivis- App** (for iOS, Android and as web-app):
 1. company logo on the IRRC screen,
 2. you can add the following data to your company profile:
 - company logo,
 - contact information (email, phone, website, link to LinkedIn, XING and Facebook, address),
 - contact persons (e.g. speaker, further participants via free tickets or regularly booked participants),
 - documents (e.g. image brochure, product descriptions, etc.) which the participants can download,
 - short text (about the company, or the services/products offered)
 3. posting one message to all participants, consisting of text, image and, if applicable, a link – the time of the posting is to be coordinated.

At the end of June, the Congress programme shall be put online, sent by newsletter and printed.
